Long vita Markus Reitzig

Markus Reitzig studied chemistry (Diplom-Chemiker), law and business economics (Master of Business Research, Doctor oeconomia publicae) in Germany (Universities of Constance/Kiel/Munich), Italy (LUISS Rome), and the United States (UC San Diego/UC Berkeley). From 2002 until 2006 he was employed with the Copenhagen Business School in Denmark, first as Assistant Professor and, from 2004 onwards, as Associate Professor with tenure. During winter 2005, he worked with the Australian Graduate School of Management in Sydney as a Visiting Associate Professor. In 2006, Dr. Reitzig joined the London Business School as an Assistant Professor for Strategic Management. In 2012, he finally assumed his current position as Professor at the University of Vienna to head the newly founded Strategic Management Subject Area. In 2014, he also served as a Visiting Professor at INSEAD, teaching on its Singapore campus. In 2017 he has been a Visiting Professor at Keio University/Tokyo.

For the last decade, Markus Reitzig's research has been centered on the strategic management of innovation. Markus is particularly interested in firms' strategies to appropriate rents from their investments in technology; using intellectual property rights among other mechanisms. His prime areas of ongoing investigation are the study of organizational design suited to create and capture value from distributed innovation, and related behavioral adaptations of classic organizational design theory.

Methodologically speaking Markus combines (formal) theory as well as both qualitative and quantitative empirical techniques; maintaining close communication with policy makers and businesses through applied research and consulting ensures that scientific phenomena of practical relevance are chosen as objects of his studies. Prof. Reitzig's research has been supported by several funding agencies over the past years, including the Australian Research Council, the Deloitte Institute for Innovation, and the Danish Social Science Council. Markus currently acts as principal investigator on two large projects sponsored by the Austrian Science Foundation (FWF) and the Austrian National Bank Anniversary Fund.

Articles by Dr. Reitzig have been published/are forthcoming in the top practitioner outlets such as *Harvard Business Review*, *Sloan Management Review*, and *McKinsey Quarterly* as well as in the premier scientific journals such as *Academy of Management Review*, *Strategic Management Journal*, *Research Policy*, *Industrial and Corporate Change*, *International Journal of Industrial Organization*, and *Economics of Innovation and New Technology*. Until today, his research has been quoted more than seven hundred times in those journals and books that are listed in the Web of Knowledge (ISI etc.), and in excess of a two thousand five hundred times on Harzing's Publish or Perish index, and it has been presented at numerous conferences and university seminars worldwide. For his work he has been nominated for the McKinsey best paper award by the Strategic Management Society and the Carolyn Dexter award by the Academy of Management in 2002, and he was awarded the Tietgen Prize for outstanding contributions to business research in 2005, and, Aged 40, his quality-weighted lifetime research output already ranked 113th among all business professors in the German-speaking world in 2012, according to the German business daily *Handelsblatt*. In 2014, he was a finalist for the prestigious Consolidator Grant by the European Research Council (ERC). His former doctoral students work as assistant professors at Duke University and Erasmus University Rotterdam.

Markus regularly reviews for all leading journals in his field, and he was appointed to the Editorial Boards of the *Strategic Management Journal* in 2013, of *Organization Science* in 2014, and of the *Journal of Organizational Design* in 2015. He has also repeatedly consulted as an expert interviewee to leading business papers, such as the *Wall Street Journal Europe*, national radio, such as *ORF1*, and national television, such as *Dubai One*; his management thinking has been featured in *The Economist* and *Business Strategy Review*, and was made accessible to a broader audience at the *TEDx* event "Aiming High" in Tyrolia in June 2016, where Markus presented as an invited speaker.

Professor Reitzig has taught in several (executive) programs worldwide. As an academic facilitator, consultant or speaker he has worked together with a variety of clients from the private and public sector, including US Fortune 50 corporations, the United Nations Economic Commission for Europe, the European Patent Office, and the European Investment Bank, to mention but a few. He holds several non-executive advisory board positions with start-ups from the new economy/big-data-based business sector.

Short vita Markus Reitzig

Markus Reitzig is Professor for Strategic Management at the University of Vienna, and he has served as Subject Area Chair since the group's establishment in 2012. Starting 2014, he has also been a Visiting Professor of Strategy at INSEAD. Prior to his current appointment, Dr. Reitzig worked as full-time faculty at Copenhagen Business School in Denmark (2002-2006) and London Business School in England (2006-2012). He studied chemistry, law and business economics in Germany, Italy, and the United States. Dr. Reitzig's research has been centered on the strategic management of innovative business models and new technologies. Articles by Professor Reitzig have been published in journals such as *Harvard Business Review*, *Sloan Management Review*, *McKinsey Quarterly*, *Business Strategy Review*, *Academy of Management Review*, *Strategic Management Journal*, *Research Policy*, *Industrial and Corporate Change*, *International Journal of Industrial Organization*, and *Economics of Innovation and New Technology* and have been translated into several languages. Markus is a member of the Editorial Boards of the *Strategic Management Journal*, of *Organization Science*, and of the *Journal of Organization Design*. His former doctoral students work as assistant professors at Duke University and Erasmus University Rotterdam.
